semiconductors distributor with a difference.

Independant distributor.
Gateway to the open market.

Special offers
Stock on the shelves
Dedicated Service
Efficiency & Accuracy

OEMs

Operating as a product specialist on all kinds of semiconductors for over 20 years.
Trading actively all around the world to serve OEMs & CEMs

A TRUSTED SOURCE FOR OEMs

We are the best complementary and alternative source of semiconductors to the largest local franchised distributors:

- Being linked to worldwide sources and to the open market, our aim is to find the parts you need for immediate delivery.
- Fast acting: whatever the state of the volatile market, we offer competitive prices and efficient service.
- We have an edge over the actual market, providing you special opportunities.
- We have accumulated experience and built strong relationships with a hundred OEMs over 36 countries and are considered by some as an operational extension of their purchasing office.
- Our dedicated and professional team can offer tailor made service.
- We have a large in house inventory and insure a continuous inflow of merchandise for stock.

YOUR EXCESS STOCK INTERESTS US WE BUY FOR STOCK

We offer a complete service for your Excess Inventory: liquidation of Memory, ICs, Transistors, SCRs, Diodes, Passives and more.

We submit for your consideration:

- Entire lot bids or line item bids
- Consignment contracts
- Marketing Services: When time is of no concern and prices are fixed at agreed market levels, we do all the necessary marketing to offer those products to whom ever might be interested. We also establish specific campaign actions.
